UTILITY SERIES™

OtterBox® Latch™

APL8-IPAD1

ULTIMATE UTILITY ACCESSORY

Whether you use your iPad for data collection in the field, for maps while flying, for entertaining kids in the car or are looking for other ways to keep your iPad on hand while you work, the OtterBox® Utility Series™ Latch™ is the only accessory you need.

FEATURES

- **LATCH with ADJUSTABLE HANDSTRAP**: The Latch fits onto an iPad by itself and when it is protected by the Defender Series® or Commuter Series® cases. The padded strap is adjustable for a comfortable fit on all hand sizes.
- **ADJUSTABLE ELASTIC STRAP**: This wide elastic strap with heavy duty Velcro secures the iPad to your leg while sitting or kneeling on one leg. It is also doubles as a fixture for strapping the iPad to the back of a car seat headrest.
- **ACCESSORY STORAGE BAG**: This versatile feature keeps all of your straps neatly stored in one place. It also doubles as a stand for the iPad.
- **ADJUSTABLE LANYARD**: The lanyard attaches to the corners on the back of the Latch and can be adjusted to your desired length to hang the iPad in either landscape or portrait orientation.
- **S-BINER UTILITY CLIP**: Attach the clip to the loop strap on the back side of the Latch and then clip it to your belt to keep the iPad secure while you walk and maneuver between work sites.
- **SCREEN COVER**: This lightweight cover provides momentary protection from the elements. This shield is not waterproof, but provides quick coverage from unexpected weather.

No matter how many ways you put your iPad to work or to play, the Latch is the ultimate utility accessory, making the iPad more useful and accessible in all the places you need it most.
